trying to force the American Tobacco Company to abandon the name of the Blackwell-Durham Tobacco Company in their business in North Carolina. Attorney-General Gilliam states that the New Jersey firm has not compiled with the law of 1901, requiring foreign corporations of its class to file with the Secretary of State a copy of its charter before allowing it to do business in the State, and in the meantime the company of Durham, under the name of the Blackwell-Durham Tobacco Company, was chartored, while the New Jersey company was doing business in the State only by license.

It is not right that a domestic corporation should use in its business in this State the same name of a foreign corporation. Now the State of North Carolina, therefore, has the right to grant a charter to the Blackwell-Durham Tobacco Company, of Durham. Having already done so, it would not be proper to issue a certificate or allow another corporation to do business in this State under the same name.

CASE OF MUTINEERS

(Special to The Times-Dispatch.)
WILMINGTON, N. C., August 14.—For

New Orleans for Philadelphia, last October.
These agents, including the District Attorney, who prosecuted the case, are to report to the Department of Justice so that the case may be thoroughly understood and to enable the President to act carefully in the important matter. The negro Episcopal minister who went to see the President personally in behalf of the two negroes has returned from Oyster Bay, and speaks hopefully of his visit, though it is known that the President simply promised to look thoroughly into the case, and with that end in view made the respite a lengthy one. It is felt that the President will not pardon the negroes, but will simply commute their senience. Counsel are, however, making strong efforts for an unconditional pardon, and the negroes look engerly forward to such. They were to have been executed Friday.
